Note from EQL:HER CEO

I am proud to introduce the 2025 InspiringFifty United Kingdom winners - fifty remarkable women who are leading innovation, building inclusive teams, and shaping the future of UK tech. At a time when the pace of progress for women is under pressure around the world, their achievements shine even brighter. These trailblazers are founders, investors, leaders, and change-makers driving real impact - not just within their companies, but across the entire ecosystem. Their stories are a powerful reminder that diversity isn't a box to tick- it's a catalyst for better ideas, stronger businesses, and faster innovation. Progress isn't inevitable - it's the result of deliberate choices and bold leadership. As we celebrate this year's winners, we hope their leadership will spark inspiration, fuel ambition, and pave the way for many more to follow.

Laura Stebbing
CEO, EQL:HER
