# Making holistic care a patients with complex

## Objectives:

The benefits of attending **Woundcare4Heroes 5th Annual Conference 2017** will be:

- To learn about the historical perspective of burns care and identity in Britain
- To investigate the research advances in burns and infected wounds, and clinical evidence in maggot therapy
- To understand the complexities of pain in amputations stumps
- To appreciate the long-term planning for scar management
- To gain insight into appropriate referral paths for mental health issues
- To explore how we can care for the carers
- To discover more about the Veterans Trauma Network, Woundcare4Heroes and the Stoll

## Who should attend?

**Woundcare4Heroes 5th Annual Conference 2017** will be of particular interest to:

- Wound care and tissue viability specialists
- Burns, plastics and trauma specialists
- District and practice nurses
- Military and Territorial Army nurses
- All other professionals with an interest in complex wound healing
