# Symposium

The aim of the 10<sup>th</sup> RSC-BMCS Fragment-based Drug Discovery meeting will be to continue the focus on case studies in Fragment-based Drug Discovery that have delivered compounds to late stage medicinal chemistry, preclinical or clinical programmes. The Fragment series was started in 2007 and continues with this theme in having over the majority of the presentations focused on case studies. This will be complemented by technology progress in high concentration, Covalent, NMR, SPR and X-ray screening.

## Confirmed Speakers

**Andrea Gohlke**, *AstraZeneca*

**Dan Erlanson**, *Frontier*

**Jean-Louis Reymond**, *ETH Switzerland*
