

EuroDisplay 2017

31 October – 2 November 2017

Meliá Berlin, Berlin, Germany

Organised jointly by the IOP Optical Group and the Society for Information Displays

<http://eurodisplay2017.iopconfs.org>

EuroDisplay is the only event that covers displays, electronics and their impact on society. The conference will cover all types of displays and will provide an opportunity for those involved in display-related research and development to network.

After the successful 2015 edition held in Ghent, the next EuroDisplay conference will take place in Berlin, Germany, from 31 October to 2 November 2017.

The biennial EuroDisplay conference is being jointly organised by the Society for Information Display and the Institute of Physics Optical Group. The conference will include presentations, poster sessions and an exhibition showcase of display technology.

The conference will be held at the Meliá Berlin, which is located in the heart of Berlin, next to the River Spree and just a short distance from major attractions such as the Brandenburg Gate, Museum Island and Alexanderplatz.

Topics will include:

- 3D displays and technologies
- Display applications (automotive, mobile, projection and microdisplays)
- Display materials and components (organic conductors and semiconductors, liquid crystals, touch screens, transparent conductors, graphene, CNT and related technologies, optical films, perovskites, OPV, filters, substrates, etc.)
- Energy-efficient lighting and backlighting for displays
- Liquid crystals beyond displays
- Metrology and standards
- OLED and organic electronics
- Printed electronics
- Quantum dots

The submission of papers dealing with any aspect of information display is encouraged.

Abstract submission

Contributions for orals and posters are invited; please submit a one-page abstract paper for inclusion in the conference programme and book of abstracts via <http://eurodisplay2017.iopconfs.org/abstracts>

Authors of accepted abstracts will also be encouraged to (optionally) submit full papers (6 pages) for inclusion in the *Journal of the Society for Information Display* (JSID). An expedited review procedure will be applied.

Exhibition and sponsorship

A two-day exhibition of scientific instruments, equipment and techniques will be held alongside EuroDisplay on 31 October and 1 November 2017. EuroDisplay 2017 invites companies within display-related industries to showcase their products and network with 200–250 attendees. Exhibition places are limited and allocated on a first-come, first-served basis.

Sponsorship opportunities are also available for companies wishing to raise their profile at the event. Please email conferences@iop.org to register your interest and receive further information when the exhibition and sponsorship packages are announced.

Key dates

Abstract paper submission deadline:	1 June 2017
Full paper submission deadline (optional):	1 August 2017
Early registration deadline:	1 August 2017
Registration deadline for presenters:	1 September 2017
Registration deadline:	15 October 2017
