

# International Conference on High Energy Density (ICHED) 2019

31 March to 5 April 2019

University College, Oxford, UK

<http://icheds2019.iopconfs.org>

The International conference on High Density Energy Science (ICHED) 2019 will be hosted by University College in Oxford, UK from 31 March to 5 April 2019. This conference covers a range of different disciplines, including high energy density hydrodynamics, radiation transport and radiation hydrodynamics, atomic physics of ionized plasmas, magnetized HED dynamics, laser plasma waves and instabilities, relativistic HED physics, warm dense matter physics and laboratory astro-particle physics.

The aim of the conference is to bring diversity and depth of expertise to a programme filled with oral and poster contributions, as well as key note talks. The conference is organised by the IOP Plasma Physics group and the target number of attendees is 80–100, from both the UK and further afield.

## Sponsorship

The conference offers an array of sponsorship opportunities for those companies who want to increase their visibility within the community. Due to limited facilities at the venue for an exhibition, our sponsorship packages offer you a solution to maximise communication with delegates.

## Why sponsor

- Sponsorship contributes significantly to the promotion, planning and operation of the conference, reducing the overall cost of managing the event and enabling a higher level of participation
- Demonstrate your commitment to assisting the development of young researchers
- An opportunity to promote your organisation and raise your profile within the wider international community
- Promote your company name to participants prior to, during and after the conference – these include decision makers, scientists and students
- Your support of the conference will be acknowledged widely through web-based and printed material.
