

# International Nuclear Physics Conference 2019

29 July – 2 August 2019, Scottish Event Campus, Glasgow, UK

<http://inpc2019.iopconfs.org>

The International Nuclear Physics Conference (INPC) is held every three years and is the biggest conference for fundamental nuclear physics. The conference is overseen by the International Union of Pure and Applied Physics.

The programme will showcase the very latest work across the whole range of topic areas in nuclear physics. It includes a world-class programme of plenary speakers, a range of parallel sessions with invited and contributed talks, poster sessions, outreach activities, including a public lecture and trade exhibition. There will also be excursions and social activities for informal networking.

## Key dates

<b>Early registration deadline:</b>	1 June 2019
<b>Registration deadline:</b>	19 July 2019
